Experience

Information Technology Intern

Mar 2024 - Apr 2024

DXFutureTech - Dubai, UAE

- Supported IT and real estate technology initiatives across property management and client management use cases for major UAE developers, including Sobha, Emaar and Nakheel.
- Worked with Oracle SQL Database and Power BI to analyse booking data, translating operational datasets into clearer reporting and client-facing business insights.
- Contributed to HTML-based booking platform improvements, focusing on user experience, database connectivity, technical demonstrations and troubleshooting support.

Generative AI Applied to Finance Program

Oct 2024

PwC Middle East - Abu Dhabi, UAE

- Studied practical applications of generative AI in financial modelling, risk assessment and algorithmic trading, linking emerging AI methods to data-driven business decisions.
- Evaluated ethical considerations, automation risks and adoption challenges surrounding AI use in financial markets and enterprise environments.

International CERN Particle Physics Program

Apr 2025

Khalifa University - Abu Dhabi, UAE

- Analysed real LHC data using HYPATIA software to identify particle decay patterns and connect experimental datasets with particle physics theory.
- Explored the Standard Model, Higgs boson, gravitational waves, dark energy and large-scale experiments including LISA and CERN FCC, strengthening analytical reasoning.

Model United Nations Director

Sept 2024 - Apr 2025

The British School Al Khubairat - Abu Dhabi, UAE

- Co-led planning, logistics and delivery of a full-day Model United Nations conference involving 30+ delegates from multiple Abu Dhabi schools.
- Managed delegate preparation, committee proceedings, guided resolution drafting and moderated debates while promoting ethical technology use and professional communication.

Projects

EPQ Research Project: Impact of AI on Healthcare Employment | *AI, Labour Market Analysis, Ethics*

- Completed an Extended Project Qualification in sixth form on how artificial intelligence may affect employment and labour market trends in the healthcare industry.
- Examined AI applications in diagnostics, medical imaging, clinical decision support, robotics, and healthcare administration, focusing on both automation risks and new job opportunities.
- Evaluated ethical issues including AI bias, transparency, accountability, patient safety, and workforce reskilling, using source evaluation through the CRAAP table.

Ektashif Coding Camp - Selected Participant | *C++, MATLAB, Java*

- Selected as 1 of 50 students for Khalifa University's coding camp, building foundations in programming, problem-solving and technical communication.
- Applied C++ fundamentals, including loops, functions, arrays and recursion, and used MATLAB for engineering problems such as matrix operations, simulations and signal processing.

Praxis Research Report: Women in Computing Science | *Research, Academic Writing, Technology Ethics*

- Researched the underrepresentation of women in computing science, covering historical contributions, education trends, workplace bias, and the impact of gender imbalance on technology development.
- Analysed how stereotypes, confidence gaps, and workplace barriers affect participation in computing, linking the issue to wider risks such as biased AI systems and reduced innovation.
- Produced a structured university report with literature review, global case examples, recommendations, and formal academic referencing.

Technical Skills

Languages: Python, SQL, JavaScript, C++, HTML5, CSS, Java, MATLAB

Tools & Platforms: Salesforce, Power BI, Oracle SQL Database, Git, Google Cloud

Areas of Interest: Artificial Intelligence, Data Analytics, Software Development, Cloud Technologies

Education

Heriot-Watt University Dubai

BSc (Hons) Computer Science | Sep 2025 - Sep 2029

- **Relevant Modules:** Logic and Proof, Software Development 1, Introduction to Interaction Design, Praxis, Software Development 2, Introduction to Computer Systems, Discrete Mathematics, Web Design and Databases

The British School Al Khubairat

Pearson International BTEC Engineering Level 3 Diploma, A Level Mathematics & EPQ | 2023 – 2025
